## About Us

The Flatwater Group creates your perfect solution. We collaborate across multiple industries to provide our customers with the best people, processes, and equipment in order to support your strategic goals and objectives and to reduce costs.

The Flatwater Group includes businesses that are certified participants in the 8(a) program of the U.S. Small Business Administration (SBA), HUBZone and Buy Indian Programs. The group also includes ISO 9001:2015 certified companies.

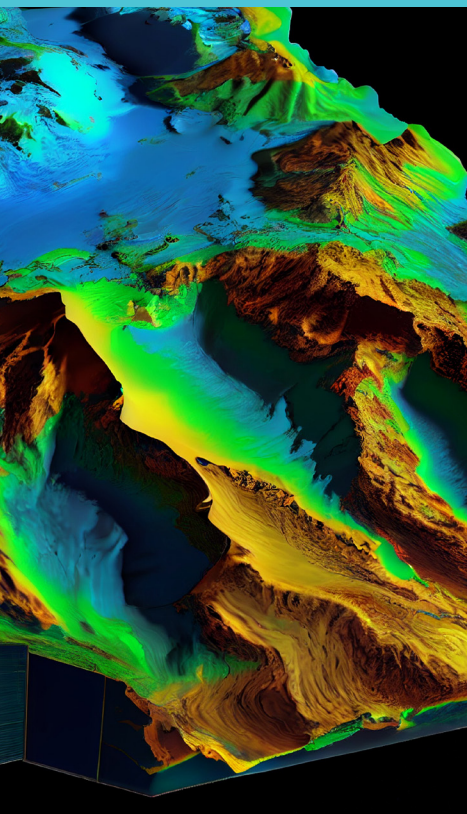

**MANAGEMENT:** Performance meets contractual requirements and exceeds many to the Government's benefit. The management of the contract, through the Project Manager, is **first rate**. Open lines of communication and formalized project meetings ensured that there were no issues in completing the SOW. **||**

## Geospatial Past Performance

The Flatwater Group has worked with multiple federal agencies across a variety of industries. We currently provide a wide range of services to the BIA - Division of Energy and Mineral Development (DEMD) including conventional and renewable energy engineering, information technology and GIS. Flatwater is responsible for the design, development, maintenance, and operation of the National Indian Oil & Gas Energy and Mineral System (NIOGEMS). NIOGEMS is a GIS-oriented application for managing reservation oil and gas leases, well production data, and other energy/mineral resources. NIOGEMS is available to tribal offices and federal agencies supporting tribal entities to assist in the development of natural resources. The NIOGEMS application provides a geospatial analysis of detailed and diverse datasets for rapid processing of energy and mineral development decision in conjunction with tribes, federal agencies, and industry. Our skilled professionals provide leading edge tools and customized solutions to the BIA and tribal users across the country.
